Chiropractic designed ergonomic harness increases range of motion for extended hours of use.

Additional Features

- **45 Minute Runtime Battery***
Up to 45 minutes of fade free performance.
- **Dual Bay Sequential Charger***
Only one battery is charged at a time. When two batteries are in place, the battery with the most charge remaining will be charged first. This ensures the fastest time to full charge.
- **Self-Sealing Bag**
Promotes healthier disposal of full bags, trapping dust and debris from escaping back into the air.
- **Tool-Free Assembly**
Quick and easy tool free assembly out of the box, to get up and running faster.
- **HEPA Filtration with Hexaguard™ Technology**
HEPA Media Filter traps 99.97% of dirt, dust and pollen down to 0.3 microns, improving indoor air quality and reducing dust returning into the air. Hexaguard™ Technology with activated carbon absorbs odor producing molecules improving air freshness.
- **Lightweight Design**
The lightweight design and ergonomic harness enables easy maneuverability.
